DESIGN**

To replicate the glitz and glam of a movie premiere, a red carpet lead flower show guests through an Art Deco-inspired theater façade. The entrance garden featured towering juniper columns, 25-foot palm trees, and chandeliers decorated with blossoms, moss, jewels, and fabric; a 29-foot-high marquee of 10,000 dried flowers and more than 200 lights was the main attraction. Along with a giant movie screen, a moving sculpture of a deconstructed film projector whirled in the garden.
